

**Siege Studios are proud to offer the Essentials Master Course**

### **Essentials Master Course**

Our Essentials Master Course is a technique and discipline painting course designed to guide, show and push your abilities to the next level, giving you the skills, knowledge and competency to create high level table top miniatures and armies for your hobby. The Essentials Master Course is perfect for either hobbyists of a basic level OR those wishing to add and improve on techniques and their ability, to push to that next level!

From weathering and chipping to painting skin tones and power weapons, we cover many techniques in detail with theory and practical use giving you final core steps on how to best finish models.

The Essentials Master Course is designed for all levels and to aid in creating armies of high table top miniatures equivalent to our Bronze & Silver Levels here in the studio.

This two day intensive modelling and painting course offers the very best in demonstrations and step by step examples of techniques and how best to apply them on your very own models.

Our team of artistic instructors all who paint to competition level will show, guide and teach you the right steps to advance your ability across many modelling and painting aspects all in aid of producing the best results possible.

### **The Siege Studios Essentials Master Course Includes:**

- Wet Pallets Explained
- Airbrush control and usage

- Shading & Highlighting
- Pre shading
- Weathering, Scratching & Battle Damage
- Grime, Dirt, Rust, Heat Bloom and Chipping

## **Information**

You can bring models from your collection to work on and add to or bring a fully assembled and cleaned model to the course, for example a tank or vehicle. For each practical exercise we will provide you with relevant parts or models for you to practice the techniques on so that you can be happy with the technique prior to adding it to your models.

You will need your brushes, paints and any specific other preferred colour paints you require for your personal army. If you own an airbrush & compressor, please bring it with you along with a hair dryer also. If you do not have an airbrush or compressor, do not fear we will have some onsite for you to try out and learn on but please make sure you bring your own if you own one! All other course specific items will be provide by us!

## **Terms and conditions**
